## Illinois Wesleyan University Course Selection Form

Use this form as a tool for course selection. It can be used as a document students use to prepare for their advising appointments, but should be completed and approved on a semester-basis with his/her academic advisor. It is recommended that the advisor and/or student generate a degree evaluation before the course selection process begins in order to determine what requirements are still left to be completed. Indicate the courses the student plans on registering for; in addition, check off any and all of the boxes of the requirements the course will fulfill. The shaded area can be used for alternate choices in case the student's first choices are closed.
