Reference Services

Illinois State's Milner Library provides a wide range of convenient reference services, many of which you can access by computer. Visit Milner's Web site and click on the Ask a Librarian link to learn more about how Milner's staff can help you.

Reference Desks • Milner's reference desks are divided by subject areas. The Web site lists the phone number and location for each reference desk, making it easy for you to contact staff with expertise in your area of study.

E-mail • E-mail your question to a Milner Librarian and receive a response within 24 hours, with the exception of weekends and holidays.

Virtual Reference • Access real-time assistance via a "chat" service that is made available 24 hours a day, seven days a week by Milner and other Illinois Libraries.
