

Screening for Breast Cancer:

Helping You Understand the Recommendations for Mammograms and Self Exams

With all the conflicting media reports women are confused more now than ever regarding the frequency and importance of a mammogram in their overall breast health plan.

This program is designed to help women clear up some of the confusion and will include a review of:

- The Current Standards for Breast Cancer Screening
- Breast Imaging: Mammograms, Ultrasounds, and MRI's
- Interpreting Your Mammogram Results
- Breast Biopsies: Core Needle, Stereotactic, and more
- Breast Self Exams
- Role of a Breast Health Navigator

when Wednesday, October 5, 2011
5:30 pm dinner with program to immediately follow

who **Jason Davis MD Radiologist, OSF Medical Group**
Xiaotian Austin MD Radiologist, Bloomington Radiology
Jolene Clifford RN, OCN, CBCN, Breast Health Navigator

where Baxter's American Grill Private Dining Room
