The objective for each session of the Junior Titan Soccer Academy is for each young player to have an educational and enjoyable experience on the soccer field. We attempt to provide an extended opportunity for young players to further develop their soccer techniques, which will create the foundation necessary to become successful soccer players. We also devote some time to the teaching of elementary tactics so that the players, along with the rest of their bodies, go home feeling good about themselves and what they have accomplished.

Coach Barrett has recently completed his seventh year at IWU as the Head Coach of the Women’s soccer team. Coach Lakin has been the Head Coach of the Men’s team at IWU since 2002. Under their direction, participants in the Junior Titan Soccer Academy will be instructed by members of the IWU men’s and women’s soccer coaching staff and players from both teams. Additional instructors may include other college, high school, and club level coaches.
