Curriculum Council Agenda
January 12, 2004

From Academic Standards:

In order to clarify requirements for the Writing Intensive flag, CC recommends that the following language be added to the existing Writing Intensive flag description in the Curriculum Development and General Education handbooks:

"Students who elect to pursue two majors are required to take a Writing Intensive course in each major. Those students who attempt to pursue a triple major are required to take three Writing Intensive courses, one in each major."
